I am a person who has an interest in the proposal that is greater than the interest the general public has. In this case, the grounds for saying that I come within this category are as follows:

We own land impacted by the zoning and provisions of the Proposed District Plan.

Email- Sarah.ho@nzta.govt.nz

The particular parts of the submission I oppose are:

All of submission S356.091 in relation to the General Residential Zone subdivision standards.

FS396.002

The reasons for my opposition are:

The PDP standards reflect the existing provisions of the Operative District Plan which has been attaining the purposes of the RMA. The Submitter is seeking higher density development which has a direct correlation additional traffic movements will occur from a than would otherwise be generated from a single 600m² residential site. This size lot also enable a range of housing choice which is reflected within the existing housing stock.

I seek that the whole of the submission be disallowed for the following reason:

Retaining the 600m² threshold as a Controlled Activity consistent with servicing design along with the amenity and values currently received in the residential environments.

Email – longbeachrussellnz@gmail.com

The particular parts of the submission I support are:

All of submission S150.001 in relation to the Coastal Environment provisions proposed in urban areas.

The reasons for my support are:

Coastal Environment provisions for urban areas creates unnecessary tensions in terms of height limits. 5m height limits in urban areas are not considered appropriate.

FURTHER SUBMISSION No 6 -

I support the submission of:

makarenad@barker.co.nz

The particular parts of the submission I support are:

All of submission 251.

FS396.006-FS396.021

The reasons for my support are:

Submission 251 rightly notes that the underlying analyses related to the Coastal Environment provisions has not sufficiently considered the appropriate implementation of these provision in the urban environment.

Specific provisions such a height limits and gross floor area restrictions (for example) require flexibility when considered against the urban environment values and existing environment.

I seek that the whole of the submission be allowed:

The reasons for my support are:

The submission seeks various changes in relation to the urban environment / coastal environment interface as well as specific provisions in the Mixed Use Zone. Additionally, the submission seeks better reflection of business land needs that should be reflected throughout the Plan.

I seek that the whole of the submission be allowed:

As detailed above and within the Original Submission No 344.
