

Small items can cause big problems for your toilet.

These items don't break down in water or within the wastewater network like toilet paper does. Instead, they form large clumps that block pipes and cause overflows.

Only human waste and toilet paper should be flushed down the toilet; everything else goes in the bin.

Don't make your toilet sick!

Only toilet paper, pee and poo should be flushed down the loo!

Put everything else in the bin

wet wipes

paper towels

plasters

toys

food packets

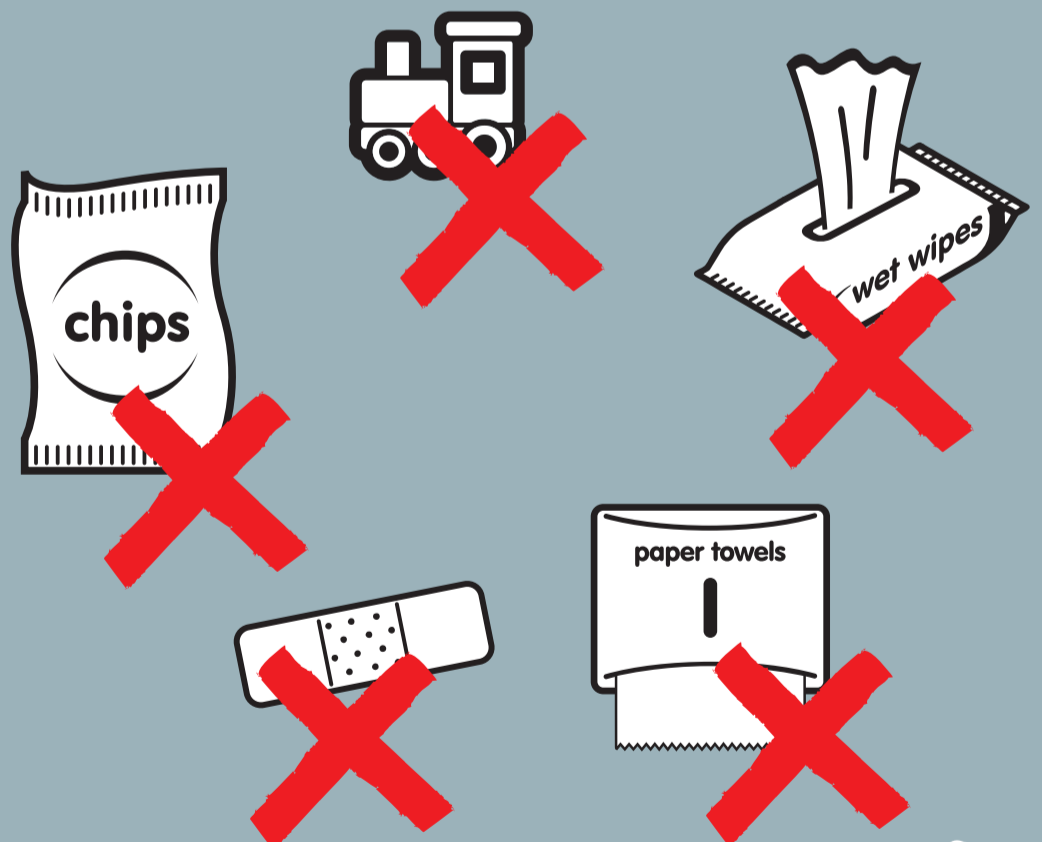

Keep your toilet happy!

Only toilet paper, pee and poo should be flushed down the loo!

Don't make your toilet sad!

Put these in the bin!
