I wish to be heard: Yes

I am willing to present a joint case: Yes

Could you gain an advantage in trade competition in making this submission?

- **No**

Are you directly affected by an effect of the subject matter of the submission that

(a) adversely affects the environment; and

(b) does not relate to trade competition or the effects of trade competition

- **No**

Submission points

Point 9.1

Section: Heritage area overlays

Sub-section: Overview

Sentiment: Support in Part

Submission:

We are lodging a submission to oppose the new FNDC Kerikeri Heritage Area (B) in regards to the mapping of the proposed southwest boundary of the Kerikeri Heritage Area (B) as it affects our Inlet Rd property.

According to council maps (see attachment 1), this proposed Heritage Overlay encroaches on our property (by approx 8840sq m) and is not positioned on our existing boundary. We accept that it could be a simple mapping error, with the easy solution of moving the Heritage boundary to our existing property line. According to p. 9 of section 32 of the plan , these lines were drawn based on “desktop research” only and NOT on actual site facts. In addition, on p 10, it states that “private land was not visited”. Therefore, it seems an unrealistic option to make a Heritage boundary THROUGH a property and not alongside. It appears that the Southwest Heritage Area boundary connects two points: the first being the point on Kerikeri Inlet Rd ridgeline and the second being the point on the esplanade reserve which corresponds to the original Kerikeri Visual Buffer in the Operative District Plan, without following our property line.

There is no adequate reasoning why the Heritage area should not stick to the existing property boundary, as we examine the maps, the wider Heritage Area (B) predominately adheres to other properties lines, for example on Inlet Rd, Mission Rd and Landing Rd. There are only a limited number of properties where the proposed Heritage Area encroaches or intersects a property. Placing the Heritage Boundary line through our property does not follow the overall pattern of the wider delineations.

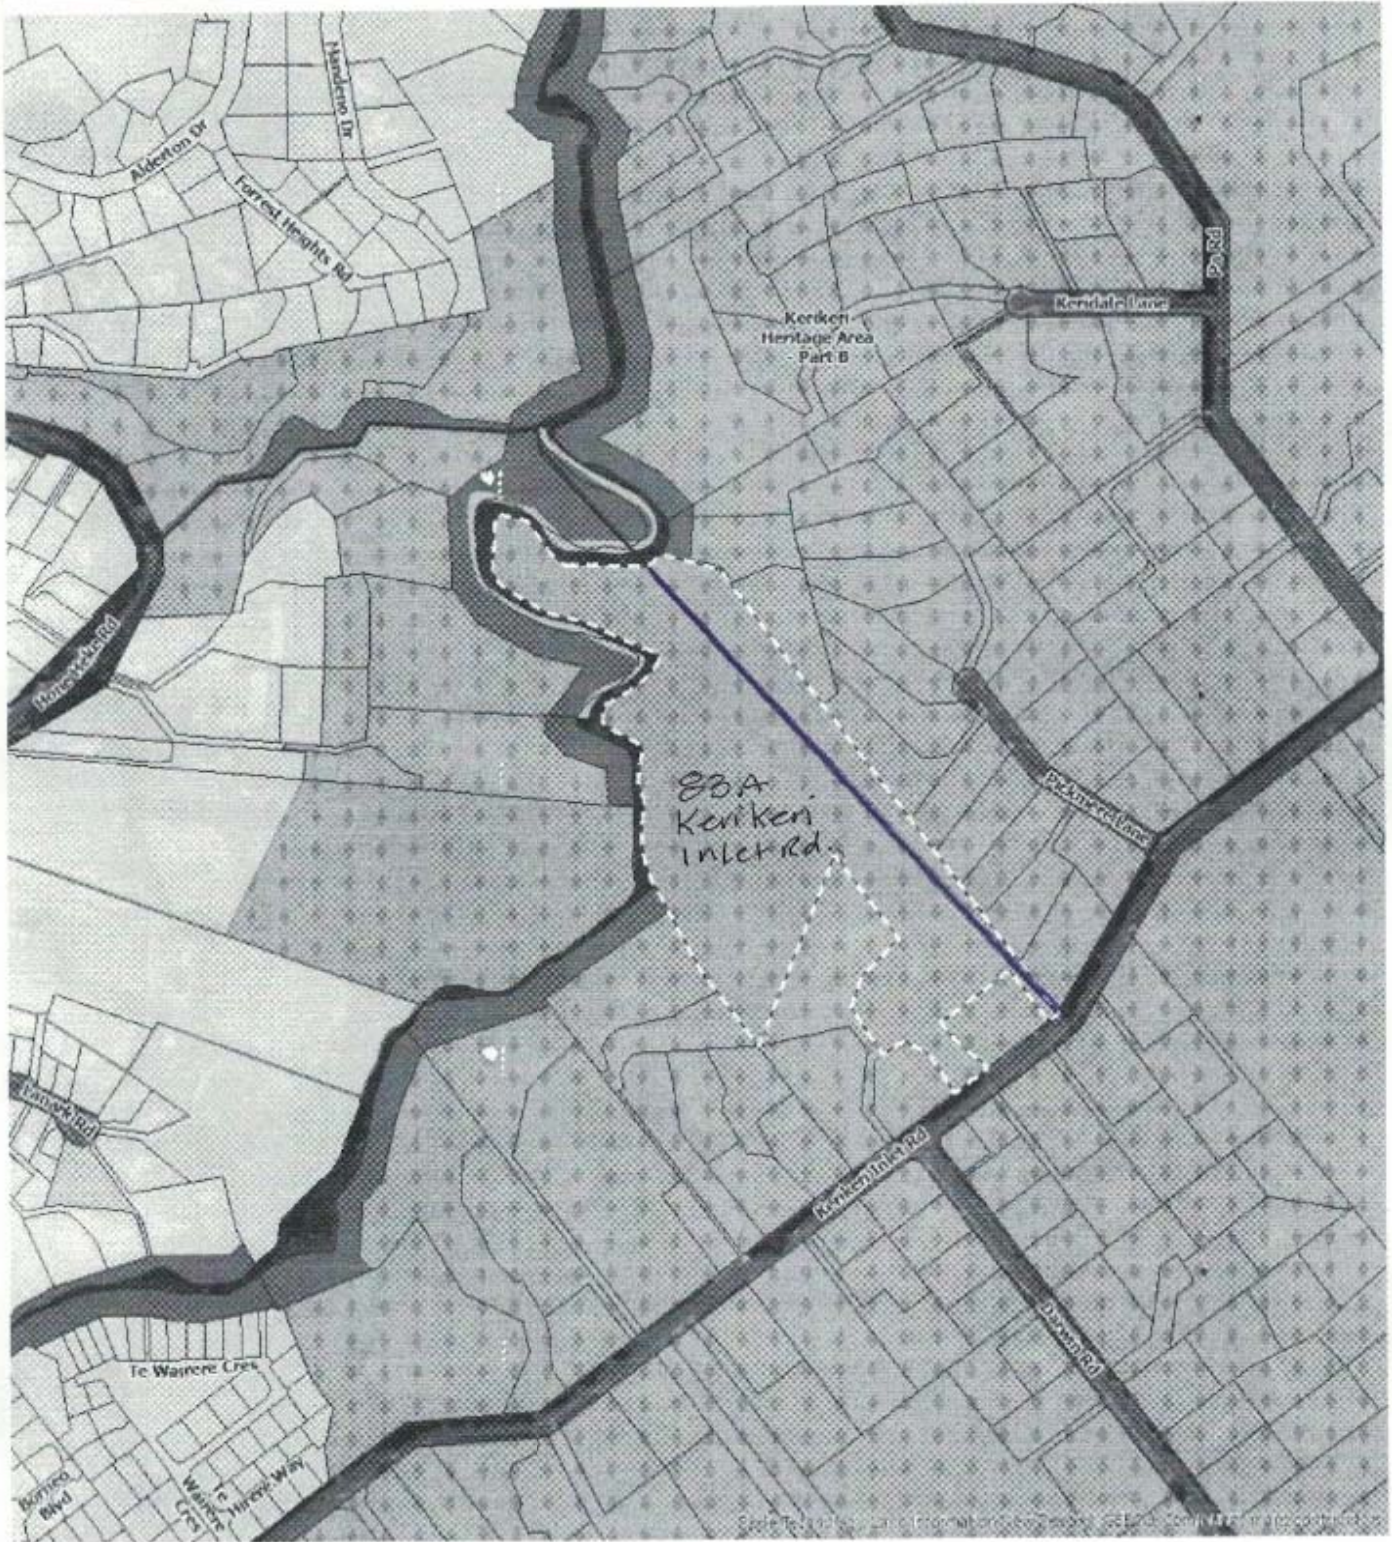

An intersecting Heritage Boundary is not logical, as you can see from the attached maps (attachment 2) , it will encumber access to our driveway on 99 Inlet Rd. We have a subdivision approved for 99 Inlet Rd as show on the attached (attachment 3).

The natural contours of the land combined with an existing overland flow path - running off from Inlet Rd and parallel our boundary - makes our property line a clear-cut naturally defined end for the Southwest line of the Heritage area (B). (See attachment 4)

In the 30 years we have been living on this property, we have not identified any archeological sites, historic trees or buildings, nor any cultural sites of note that would mark it as “Historical”. Also there are no recorded heritage sites on the Far North Maps.

Relief sought

The solution we seek from the Council is that the proposed South West boundary of the Kerikeri Heritage Area Overlay – Part B is re-drawn to correspond with the existing property boundary of 83A & 99 Kerikeri Inlet Road (Lot 2 DP 380510) as shown in Attachment 5.
