Assessment of environmental effects

Location of proposal: 13 Parnell Street, Rawene

Lot and DP number:

Applicant's details: Crossover Church

Email: rawenecrossover@gmail.com

Contact person: Valerie August (church administrator), 0210738734

Site details: SEC 8 RAWENE TSHIP

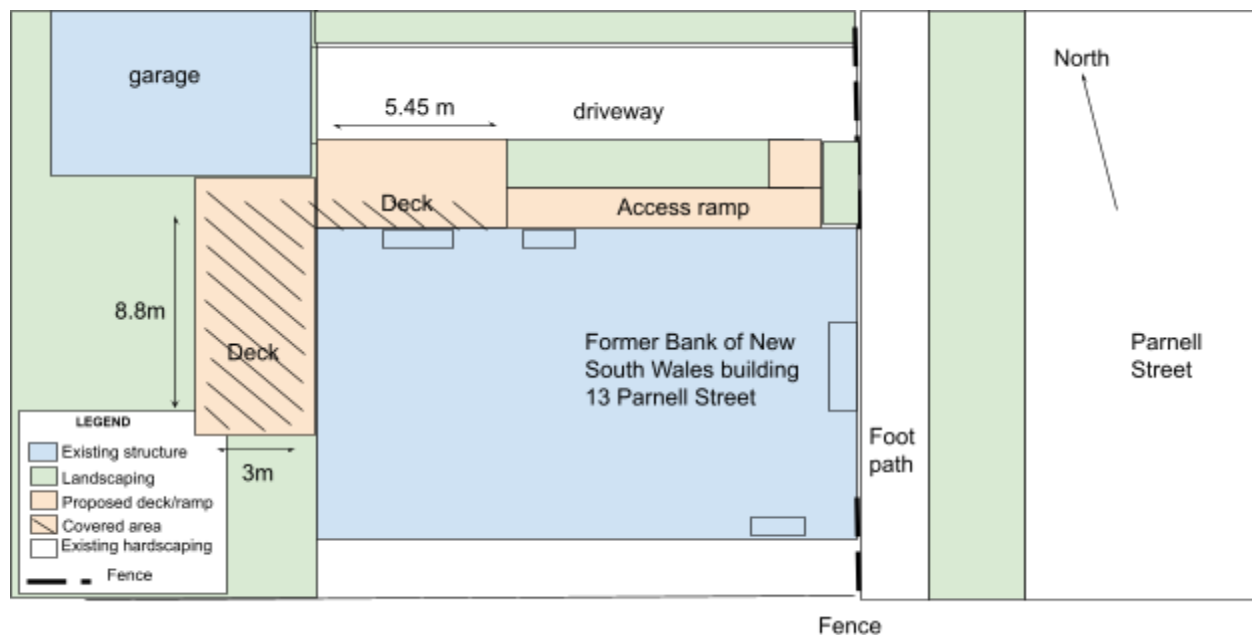

Title References : NA-33A/1243

Operative Plan Zoning: Commercial, Rawene Precinct Heritage Area

Hazards: nil known

Proposed activity:

Construction of an access ramp and covered deck (~30m²) in the North and West sides of the property. The deck to be built in the style as set out by the Rawene Heritage zone guidelines. Height to be less than the height of the existing 2-storey building, ~3.15m at tallest point of the flashings. Covering of polycarbonate on a timber frame. Black flashings and spouting to avoid confusion with the existing building. No earthworks required for this project and there is no impact on passing foot or vehicle traffic. All work will be adjacent to the existing building and not near any other building or property boundary, with the exception of a ~3x3m section of the ramp where it joins the ground near the existing fence on the East edge of the property. The spouting for the new section will tie into existing stormwater drainage on the Northwest corner of the building. Any shade caused by the deck covering will fall completely on the property.

Site description:

13 Parnell street is a 1011 m² section with an ~25.15m frontage on the East edge of the property abutting Parnell Street. The former Bank of New South Wales building's main doors open to the East. The building is also accessible via a driveway on the North side of the building. The section is essentially level. It is not known to be at risk for slips or inundation.

Impacts:

The access ramp and a small portion of the covered deck will be visible from Parnell street, although partly obscured by existing plantings at the northeast corner of the building and the existing window awnings and brackets. The covered deck to the rear of the building will be visible to the neighbours at the South of the building. They had no objection to the project when approached.

Conclusions: we believe that the proposed deck and access ramp have minimal impact on the character of the area and no direct impacts on the neighbours.
