Rezoning - Rural production to Rural Living

Additional submission points.

Rezoning would allow for additional lifestyle allotments in a well defined small area of existing lifestyle allotments.

Existing properties are mostly elevated (4 metres or more) above sea level or protected by extensive sand dunes or sea walls which mitigates risk of coastal erosion caused by sea level rise and storm surge.

Most other coastal settlements in the FNDC area, the size of Rangiputa, have a coastal living zone which allows for growth of lifestyle allotments over time.
