Overview

The Kauri Cliffs zone ~~is located~~ applies to part of the Kauri Cliffs property located between Matauri Bay to the north and Takou Bay to the south and has been developed as a championship standard golf course, with an associated lodge and separate ~~guest cottage~~ visitor accommodation. Kauri Cliffs is internationally recognised as a prestigious golfing facility and luxury accommodation destination and the development contributes to the economic growth of the district through tourism and employment opportunities.

The zone recognises and provides for the management and development of an international standard golfing facility, visitor accommodation, spa/health facilities, conference and eating/dining facilities, and limited residential activities all with a focus on the protection and enhancement of the zone's natural, conservation and environmental values. The development of the zone is controlled by rules applying to four ~~'environments'~~ sub-zones within the Kauri Cliffs zone. These are:¹

- Golf playing subzone
- Golf living subzone
- Natural heritage subzone

These subzones provide specifically for development and activities, which are to be carried out in a manner that retains the character, features and landscape of the Kauri Cliffs zone, some of which are located within the coastal environment and are subject to the provisions in that chapter of the District Plan.

Notes:

1. There may be other rules in Part 2- District-Wide Matters of the District Plan that apply to a proposed activity, in addition to the rules in this zone chapter, including the Transport, Hazardous Substances, Noise, Light and Signage chapters. These District-Wide rules may be more stringent than the rules in this chapter. Ensure that relevant District-Wide Matters chapters are also referred to in addition to this chapter, to determine whether resource consent is required under other rules in the District Plan. Refer to the *how the plan works* chapter to determine the activity status of a proposed activity where resource consent is required under multiple rules.
2. This zone chapter does not contain rules relating to setback to waterbodies for building and structures or setbacks to waterbodies for earthworks and indigenous vegetation clearance. The Natural Character contains rules for activities within wetland, lake and river margins. The Natural Character chapter should be referred to in addition to this zone chapter.
